Oct. 27, 1970

Dear Harold,

I sent the carbon of the suit to Mary because none of my xeroxes, one of which is enclosed, would be that good to make other copies from. The machine available to me for free just isn't that good. Mary may have a good one.

Coming under separate cover is anot-her copy of the suit for you. So, with these two xeroxes you should be able to manage until Mary returns the carbon to you. If this is not OK, just write her about it and I'm sure you'll have it in two days.

Best wishes.

Gary
